**Appendix S Funding:**

The additional funds may be used by the County only for the following purposes and under the following service conditions:

The County Data Leadership Initiative will enhance the ability at the local level to use child welfare data for decision making. Counties will select three to five areas of child welfare practice they would like to analyze and improve upon through the use of data. County Directors will be expected to provide executive level leadership in aligning this project with department priorities, allocating staff and management time for this project and eventually adopting the data measurement techniques into their existing management structure.

Counties will be expected to:

- Participate fully in onsite and multi-site meetings;
- Designate a project lead;
- Provide direction on county priorities for data tracking;
- Commit to using selected data in their current management structures;
- Pay for travel and lodging at off-site meetings, if necessary;
- Share information on how to use data for performance improvement with regional colleagues; and
- Participate in ongoing evaluation and follow up to determine efficacy of this project.

Failure to meet these purposes and conditions will result in loss of these funds by the County and their repayment by the County to the Department.
